### 6. Course evaluation system

General course evaluation system	<p>100 points - 50 points during the semester and 50 points for the exam.</p> <p>"Excellent" - the student demonstrates complete and in-depth knowledge of the material, a reliable level of development of skills, correct and reasonable formulation of practical conclusions, provides a complete reasonable solution of examples and problems, analyzes causal relationships; fluent in scientific terms;</p> <p>"Good" - the student demonstrates complete knowledge of</p>
----------------------------------	--

	<p>the material, but allows minor omissions of factual material, is able to apply it to solve specific examples and problems, in some cases vaguely formulates generally correct answers, makes some minor mistakes and inaccuracies in solutions;</p> <p>"Satisfactory" - the student has most of the factual material, but does not teach it consistently and logically, allows significant gaps in the answer, does not always know how to properly apply the acquired knowledge to solve specific examples and problems, vaguely and sometimes incorrectly formulates basic allegations and causation;</p> <p>"Unsatisfactory" - the student does not have a sufficient level of necessary knowledge, skills, abilities, scientific terms.</p>
Requirements for individual work	<p>The student performs individual work, which is to develop and submit their own plan of the negotiation process, which is an admission to the test or provides a certificate of completion of the course, which covers the negotiation process on the platforms Coursera, Prometheus, etc. students in the learning process, identifying the degree of mastery of the theoretical provisions of the course. The individual assignment must be submitted for review 1 week before the end of the semester and defended and evaluated at 10 points (max)</p>
Seminars	<p>The practical lesson is held in order to form students' skills in the subject, solve problems, check and evaluate them. The purpose and structure of practical classes is a chain that connects theoretical training and teaching practice in the discipline, as well as provides prior control students' knowledge. The grade for the practical lesson is taken into account when setting the final grade for the discipline. This form gives the student the opportunity to receive a maximum of 30 points during the semester</p>
Independent work	<p>Independent work of students is the main means of mastering educational material in free time from classroom classes. The study time allotted for independent work of students is regulated by the working curriculum and is respectively 50 hours. Independent work involves the study of educational, scientific and reference literature. The recommended element of this student work is record keeping (electronic version or presentation is also allowed). This approach promotes better assimilation of the actual material, makes it possible to save it in a user-friendly form. The level of student performance of independent work is taken into account when setting the final grade for the content modules of the discipline and is estimated at 10 points (max)</p>

Conditions of admission to the final control	<ul style="list-style-type: none"> <li>– evaluation for answers and testing during classroom classes (30 points);</li> <li>– assessment for individual (presentation) work (10 points);</li> <li>– score for independent work (10 points).</li> </ul>
